Investment Levels

Established Investment Levels

Financial Institutions

Banks and Savings and Loans will pay a base fee of \$580 plus \$25 for each million dollar of deposits in the Pullman branch.

Non-profit Organizations

\$150—Non-profit organizations such as churches, support groups and community clubs can join the chamber to help build the community they serve. Must be a registered 501(c)3 or 501(c)6.

Individuals

\$60—Individuals can become involved with their community through participation in community activities, committees, and special events. Individual memberships do not include use of promotional opportunities or business name listing.*

*Representative members of an organization that already has a membership may choose to also invest at the individual level for directory representation which would include their name along with the business name (i.e. realtors, financial advisors).

Students

\$30 or 8 volunteer hours—This is a great way for WSU and Pullman High School students to gain business experience and become involved in the community.

Determining Your Investment Level

The Mission of the Pullman Chamber of Commerce is to promote, advocate and support the businesses and the community of Pullman. We serve as a business advocacy group to help promote free enterprise and economic development. We work to promote regional tourism and special events. We hope you will join us in making Pullman a better place to live, work and do business!

Add your factor levels from Table A and Table B to determine your Recommended Investment Level.
If your business has multiple locations, use information from joining location only. Dues are paid annually during your membership registration month.

Membership is continuous unless revised or withdrawn by written statement to the Chamber office. Investments are tax deductible as an ordinary business expense; consult with your accountant for information.
