

Pullman Chamber Of Commerce

2014 Legislative Agenda

Regulations and Infrastructure

We support the reduction of regulations that increase costs and place undue burden on businesses, health care and educational institutions.

We oppose regulations that put Washington at an economic disadvantage to border states.

We support reconsideration for funding the Public Works Assistance Account.

Water Issues

We support achievable standards based on peer reviewed sound science, involving a broad diversity of input, and focus on the highest impact areas.

We support reasonable and achievable storm water standards based on Pullman's unique location, topography and soil.

We support funding of the Pullman water reuse project.

Education

We support investment in the education of students (K-12 and higher education) to ensure a well trained workforce.

We support ample, equitable, and stable funding for public education.

Health Care

We support funding of critical access hospitals and the jobs they provide.

We support an insurance network adequacy criterion which will not reduce rural resident health insurance options.
