General Notes and Cautions:

Foot traffic on park pathways can often be hidden from view. Make sure pathways are clear before you throw.

Tees are marked with wood timbers, flush to the ground and perpendicular to fairway. Timbers demark the holeward limit of the tee area. Hole number and distance appear on each timber.

Be considerate when retrieving an errant disc from agricultural crops or public gardens. Do no damage.

A walking tour of the entire course (Tee 1 to Target 18) is about 1.3 miles.
